The Old-Time Winters.

Elwin L. Sabin in American Agriculturist.

Oh, the good, old-fashioned winters!
How my father loves to speak
Of the blizzards in November;
Of the snow alls for a week,
Of the fences hidden, buried
Out of sight their topmost rails—
But you ought to hear him grumble
When blockades delay the mails!

Mother says the old-time winters
Were so cold and crisp and keen!
From October clear to April
Snow and ice were always seen.
Says the nipping, stinging weather
Made the people well and bright—
But her plaudits lack expression
When the pump is frozen tight!

Uncles Abner pictures often
Fourteen weeks of sleighing straight,
"Good old winters came right early,
Settled down and lingered late.
Marquey was under zero
Most the time—remember, John?"
Now he mutters, "Beats creation
How this weather does hang on!"

Oh, the landed old-time winters
That are dinning naught but praise!
Oh, the boy hood, girlhood winters
Of those glorious yesterdays!
But when walks require the shovel
I suspect, between us two,
That some forty years or distance
Lend enchantment to a view.)

MCCHORD.—The friends of Hon. C. C McChord as well as some of the state papers have suggested him as the most available candidate for the Democrats in the contest for Governor at the next election for that office. A writer in the Campbellsville Times Journal says among other things: "Indissolubly connected with the Presidential race of Bryan, and affecting it for weal or woe, will be the Governor's race in Kentucky, and wisdom should guide the councils of the Democratic party in making its selection of a candidate. We may believe that this contingency forced itself upon the wonderful brain of Governor Goebel as he lay dying that his keen insight and perfect familiarity with the public men of the State enabled him to select a man upon whom his mantel should fall. If this be true, and he communicated to others his wishes, then the Democratic candidate for Governor is already nominated. Failing this the heavy responsibility of selecting a candidate will fall upon the party. If I were called upon to decide this question (and I won't be) I should select Hon. C. C. McChord, of Washington county, for the following reasons: He was the closest personal friend of Gov. Goebel in his life time and, together with his noble wife, stood near him in his dying hours. They served together in the Senate and fought side by side for the "McChord Railroad Bill," and "The Chinn School Book Bill," and were in thorough accord upon all question of State policy. Perhaps, better than any other living man, Mr. McChord knows and could complete the political life work of the dead statesman. So strong was the attachment between the two men, that Mr. McChord heartily supported Mr. Goebel for the nomination for Governor, although he, himself, was a candidate for R. R. Commissioner and his own county, Washington, strongly favored another candidate. Knowing the great abilities and sterling integrity of Gov. Goebel, Mr. McChord favored his nomination in spirit of the fact that prudence dictated a safer course. Taking all these things into consideration, together with the fact that Mr. McChord is our neighbor, and former Senator, it will be conceded that Mr. McChord has peculiar claims upon our people and all the people of the State for the Democratic nomination for Governor. The injunction of our dead leader to "Be brave, be fearless and loyal to the common people" would be carried to its complete fulfillment under the leadership of Chas. C. Mc Chord.

CHINN.—Col. Jack Chinn I notice has been getting himself interviewed by a reporter of the New York World and some of his opinions should create a smile. Col. Chinn says in the first place he is violently opposed to the practice of pistol "toting" and suggests a remedy for the evil. He says: "In the first place I would legalize dueling, but I would make it a capital offense for two men to fight within 24 hours after a quarrel. That would make them sleep on the proposition, and there would be very few fights. I would also make it an offense punishable by 10 years in the penitentiary for any man to carry a concealed weapon or draw it in a public place. We have a law here against carrying weapons, but it is not effective. I want to say that 99 cases out of 100, where a man is killed in a street fight here it is nothing more than assassination. One man has everything on his side and the other has nothing. Do you suppose I have been comfortable during the past week or so, with some one liable to shoot me down at any time, as they did Bill Goebel? Not a bit of it. But I want to say that I would not kill a man for almost anything on earth. The newspapers of this country have painted me as a bad man, ready and eager to make trouble at any time. But this is wrong."

BLOCKED—The great political tangle at Frankfort which has had the effect of stopping all business before the Legislature has blocked the bill which was introduced to make Springfield a city of the fifth class. The bill was introduced by our representative. Mr. C. F. Bosley, and it was referred to the proper committee, and in the regular order of things would doubtless have been favorably reported, passed and have finally become a law, but as every one knows there has been no regular order of things at Frankfort this winter, but rather great disorder of things and the amount of business transacted by the present Legislature will not fill a volume of any great magnitude. If the question of who are to fill the state offices is ever settled and we have a governor it is highly probable that his first official act will be to call a special session of the Legislature to transact such business as the regular session, whose sixty days' limit expires in about two weeks, did not transact. If the Legislature ever gets down to routine work again the Springfield bill will be passed doubtless without trouble along with others of the same character which have likewise been shelved for the time being.

SUBSCRIPTIONS—The country seems to be going crazy on the subject of getting up funds for some public purpose by means of popular subscription or in common phrase, by passing the hat. One of the latest schemes, I notice, is a fund for the relief of Gov. Taylor, who it is said, has spent all of his money in his struggle for the governor's chair. If Mr. Taylor is ousted from the governor's seat and finds himself without funds, as well as without a job, his position will indeed be an unfortunate one but there has been many a man who has staked his all on an issue and lost and it was his misfortune. I don't believe, however, the present of a sum of money to Mr. Taylor or to any other man in a similar position would heal the wounds of a disappointed ambition.

MINTON.—The recent death of Mr. N. W. Minton and that of his wife only eight days later accounts of which events were given in the NEWS-LEADER at the time were particularly sad, and of course a great shock to their relatives and friends. A particularly sad feature however was the fact that the old people were preparing to celebrate the fiftieth anniversary of their wedding and their children and friends were to join in giving them a family reunion and celebration. At the time the event was planned both Mr. and Mrs. Minton were in their usual good health and apparently were destined not only to live to celebrate their fiftieth but many other anniversaries. The suit of clothes that the old gentleman had bought and laid away to be worn on his wedding anniversary was used as his burial garments.

AUGUST FLOWER.

"It is a surprising fact," says Prof. Houton, "that in my travels in all parts of the world for the last ten years I have met more people having used Green's August Flower than any other remedy for dyspepsia, deranged liver and stomach and for constipation. I find for tourists and salesmen, or for persons filling office positions, where headaches and general bad feelings from irregular habits exist, that Green's August Flower is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion." Sample bottle free at Haydon & Robertson's. Sold by dealers in all civilized countries.

Tobacco Notes

Clarksville reports say the planters of that district judging from plant beds being burned are preparing for a large crop of tobacco this year.

Louisville produced 3,022,050 pounds of manufactured tobacco in January, which is an increase of 384,648 pounds over the same in 1899.

A noticeable feature of this week's market was the presence of a great many manufacturers. Last week's market is supposed to have given "an opening" and all seemed to get hold of tobacco on a falling market, but afraid to buy largely thinking (wisely) such a movement would cause a stiffening in prices. The game seemed a two sided affair though, and in our opinion fewer hogs heads were picked up at lower prices than have prevailed for some time. Sellers seemed on their guard, the cold weather teemingly encouraging them to reject freely.—Louisville Weed.

The Winchester Democrat says unless all signs fail there will be an immense crop of tobacco raised in Clark county this year. This seems the usual report from all sections of the Burley belt. But it is well to take into consideration many farmers raise more tobacco around the fireside in winter than any other time of the year. Many tobacco plant beds have been burned, and it would be well to predict a full crop will be planted.

Washington Letter.

From Our Regular Correspondent.

Neither excitement nor surprise accompanied the final vote on the Financial Bill in the Senate. It was known from the first about how every senator would vote and that the size of the majority for the bill would depend entirely upon how many senators were present when the vote was taken. This bill accentuates the fact that of late years all the really important legislation of Congress is rather the work of a conference committee than of either House or Senate. In this case, the conference committee will start out with two bills, the original bill, passed by the House, and the substitute bill, just passed by the Senate. There is only one absolute certainty about the sort of bill that will in the end be agreed to by the conference committee, and that is, it will retain the corner-stone of both bills—the gold standard.

While the opposition to the Nicaragua Canal treaty, because of its failure to provide for absolute American control of the canal, is war as well as in peace, is still quite talkative and active, it is losing, instead of gaining in the Senate, and the indications all point to the ratification of the treaty.

Al hough neither of the reciprocity treaties now before the Senate has been ratified and there is no certainty that all of them will be, a new one was signed this week and sent to the Senate. The new treaty is with Great Britain and provides for reciprocity with the Island of Trinidad, one of the British West Indies. Sugar and asphalt are the principal products of Trinidad sent to the United States, and the asphalt beds of the island are controlled up an American concern which has practically a monopoly and has piled up an enormous fortune by its sale in the United States, since it came largely into use as a street paving material.

As regularly as the Legislative, Executive and Judicial appropriation bill comes before Congress there is a lot of talk to the galleries about the civil service in Washington and the large and growing number of aged and inefficient clerks carried on the pay-rolls. This week in the House, while the bill was under discussion, the same old talk was engaged in, but there was an addition in the shape of a few breezy and truthful remarks by Representative Hemenway, of Indiana. He told the House—what every intelligent person in Washington knows to be the truth—that the reason there were incompetent clerks in the government departments was that whenever the head of a department attempted to weed out the incompetents he was bulldragged by Representatives and Senators to stop. He cited one case in which fourteen Senators insisted upon the retention of a clerk known to be incompetent. It is notoriously true that every department of the government carries on its rolls clerks who do little or nothing to earn the salaries paid them, and it is also notoriously true that those incompetents who have Congressional "pull" are able to hang on to a government salary for any length of time.

Representative Levy, of New York, has introduced a bill providing for the construction of an isthmian canal between the Atlantic and Pacific Oceans which differ radically from all previous bills. It provides for negotiations between this government and all maratime nations, with a view of securing their co-operation and contributions to the canal, each nation to contribute in proportion to its shipping tonnage. In other words, to make the canal an international institution.

Exclusiveness is catching. For a long time the Senate restaurant has had one dining room exclusively for Senators and their guests, and now the House restaurant has set aside one dining room for the exclusive use of Representatives. The Senate also has one elevator used by Senators only, but the House hasn't gone that far yet.

A Misunderstanding

Misunderstood system of disease lead doctors to treat something else when the kidneys are out of order. Foley's Kidney Cure will bring you health when other medicines have failed. Haydon & Robertson.

Taylor a Poor Man.

Telegram to Cincinnati Post from Frankfort says: Republican Governor Taylor is bankrupt financially. He has an invalid wife, six daughters to dress and a large family to provide for. If Taylor is thrown out of the Governorship he will not have any law practice to go to, as all of his old Butler county clients were lost to him when four years ago he came to Frankfort to take up the Attorney Generalship.

Taylor was then worth $20,000. The past four years he added $5,000 to this surplus, of which he had about $10,000 left when the election excitement ended. Then the contests came on and consumed the last dollar.

His friends have started a movement to raise at least $25,000 for him by popular subscription in Kentucky. The Republicans in every county will contribute. Representative Rogers, of Christian county, who is one of the leading spirits in the cause, will make public the plans within the next few days.

IS YOUR HAIR TURNING GRAY?

What does your mirror say? Does it tell you of some little streaks of gray? Are you pleased? Do your friends of the same age show this loss of power also?

Just remember that gray hair never becomes darker without help, while dark hair rapidly becomes gray when once the change begins.

Ayer's Hair Vigor

will bring back to your hair the color of youth. It never fails. It is just as sure as that heat melts snow, or that water quenches fire.

It cleanses the scalp also and prevents the formation of dandruff. It feeds and nourishes the bulbs of the hair making them produce a luxuriant growth. It stops the hair from falling out and gives a finished finish to the hair as well.

We have a book on the Hair and Scalp which you may obtain free upon request.

If you do not obtain all the benefits you expected from the use of our Vigor, write the Doctor about it. Address, DR. J. C. AYER, Lowell, Mass.

There two better medicine for the babies than Chamberlain's Cough Remedy. Its pleasant taste and prompt and effectual cures make it a favorite with mothers and small children. It quickly cures the croup and colds, preventing pneumonia or other serious consequences. It also cures croup and has been used in tens of thousands of cases without a single failure so far as we have been able to learn. It not only cures croup, but when given as soon as the croupy cough appears, will prevent the attack. In cases of whooping cough it lessens the tough mucus, making it easier to expectorate, and lessens the severity and frequency of the paroxysms of coughing, thus depriving that disease of all dangerous consequences. For sale by Haydon & Co., Union.

Incipient consumption is cured with Dr. Bell's Pine-Tar Honey. Inflammation is allayed and healing of the lungs at once stopped. When this is accomplished the cure to health is a straight one. Get a bottle today.

Frequent Coughing

Inflames the lungs. Foley's Honey and Tar stops the coughing and heals the lungs. The ordinary cough medicines which are simply expectorants, will not do this, as they keep the lungs irritated in throwing off the phlegm. Haydon & Robertson.

This Is a Good One.

One of the most remarkable things that ever occurred in the history of Harrodsburg, we are informed, on the authority of Mr. Fountain Smedley, H. C. Wood and others, took place during the summer of 1858, and is well remembered by the inhabitants of the town of that day. What is now Mr. John Lafon's lumber and coal yard was then a hemp factory. One morning, after a terrific rain had fallen the night before, the night before, the lot which at that time included the land where Thompson's distillery now stands, was discovered to be literally covered with ordinary knitting needles, all sticking in the ground, as though they had been placed there by hand. People that were inclined to superstition were greatly frightened and thought that the end of the world was near at h . At that time most of the knitting was done by hand and the phenomenal shower was gladly received by the good women of the time. Mr. Fount Smedley, as well as many others of our older citizens claims to have seen the needles. Mr. Smedley said the colored people, and white people as well, carried away basket loads. No one has ever been able to in any way account for the phenomenal occurrence, and it has been a matter of continual speculation for over forty years. Mr. Smedley, who is our chief authority for the incidents related above, states that some of the needles could doubtless be found in use here now.—Harrodsburg Democrat.

Terrible Pests.

Traveling has its advantages and its disadvantages. Major Waddell, in his new book relates some experiences which the travellers in the Hamalayas, or anywhere else, would care to duplicate. Foremost among these is the encounter with leeches in the damp forest of the Teester valley.

A leech that is famishing, Major Waddel explains, is no thicker than a knitting needle. In such a condition, he is a dangerous enemy to every two-or four-legged creature that crosses his path.

In that forest, hungry leeches stood alert on every twig of the brushwood that overhung the track, and on every dead leaf in the path. As the travelers approached, they lashed themselves vigorously to and fro in a frantic effort to seize hold of one or other of the party. The instant they touched their victim, they fixed themselves firmly, and then, by a series of rapid movements, reached a vulnerable point, and once there, lost not an instant in beginning their surgical operations.

The servants and coolies, who walked barefoot, were badly bitten. From their ankles and legs little streams of blood trickled all day, and at almost every step they had to stop and pick off the pests. It was often hard to dislodge them.

Major Waddell and some of his friends took the precaution to dust their stockings with tobacco snuff, and bind their legs from ankle to knee with "puttees." But the leeches were not to be kept out. They crawled through the eyelets of the travellers' boots, and caused them much discomfort.

"It was upon the poor cattle and goats and ponies, however, that the leeches made the most determined attack. Their legs were always bleeding, and the little pests would lodge in their nostrails and bang from their eyelids, and from every vulnerable part of the body. Major Waddell attributes the remarkable absence of four footed game in these regions to the prevalence of these tormenting creatures.—Youths' Companion

THURSDAY, FEBRUARY 22, 1900.

The complication of affairs at the State Capital becomes more complicated. For the first time since the Goebel assassination the session of the General Assembly was held held in the Statehouse Monday. In the House they proceeded without a hitch. In the Senate, Mr. Marshall attempted to preside, but soon gave way and the Republicans withdrew from the Senate chamber, after going through the form of adjourning. The Senate then proceeded with business, with President Carter in the chair. The action previously taken on the reports of the Contest Boards for Governor and Lieutenant Governor was ratified, the resolution to that end being adopted by the unanimous vote of twenty-one members. There was no unpleasantness between Messrs. Marshall and Carter, the two presiding officers of the Senate, and everything was done in a good humored manner.

The tide seems to be turning in favor of the British in South Africa and it now looks as if the Boers are to lose in their struggle. The latest report is that large numbers of Boers are withdrawing from British territory and hastening into Orange Free State to reinforce Gen. Cronje, who is still retreating and has so far succeeded in evading Gen. Roberts' clutches. So many Boers have been withdrawn from around Ladysmith that the relief of that town is now believed to be a matter of only a day or two. Gen. Buller has seized Colenso and, when last heard from, was crossing the Tugela river at that point.

It would appear under the circumstances that the sensible thing for the members of the Legislature to agree upon doing is to adjourn sine die. They might do this in order to save the state the expense of a useless session and with the expectation that as soon as the courts dispose of the litigation concerning the state offices the Governor will call an extra session of the General Assembly for the transaction of such business as may require legislation at this time. This plan would solve a good part of the political problem.

Only two of the five members of the Philippine Commission have yet been selected, but it is said the President will announce the names of the others in a day or two. It is expected the commission will start for Manila April 1.

To Purify the Courts

Representative McRoberts, Republican of Leslie county, has introduced a bill intended to keep the judges of the courts out of politics. It is as follows:

Whereas, various Judges of various courts have by their active participation in partisan politics lowered the dignity of their official positions and so used the integrity of their judicial acts to be seriously questioned by the mass of their people and thereby greatly injured the good name of this Commonwealth; therefore

Be it enacted by the General Assembly of the Commonwealth of Kentucky.

Section 1. That it shall be unlawful for the judge of any another dose before breakfast in the Commonwealth to if the ascorite paper of it's re-

Wake Up! You are an energetic man—an ambitious one. But it is hard to get up in the morning. You feel that you could take just one more nap, and one more and still more. Your head is heavy. You hate to get up. Your mouth tastes bad. Your breakfast does not suit, and you are irritable. When you go to work you don't feel like it. You fight the feeling all day, and a couple of hours before closing time you turn in and work like a good fellow. When it's time to sleep, you are just warmed up for a six day's go-as-you-please. But it is too late, and the next morning it is the same thing over again.

That isn't laziness—it's sickness—real, serious sickness. And later it will develop into something worse—liver trouble, consumption, blood disease, or nervous prostration. There is a remedy that will put you on your feet—Dr. Pierce's Golden Medical Discovery. It will wake up your stomach, give you an appetite, and put vim in your blood. It will make a new man of you. It contains no alcohol and will not create appetite for stimulants.

Mr. Charles Hunwick, of Lenox, Macomb Co., Mich., writes: "I have never felt better in my life than I do now. I have taken Dr. Pierce's Golden Medical Discovery right along. I can now walk quite well with a cane and hope to throw even that away before long, and as I have had to use crutches for nearly two years, I think I am doing fine. I do not cough now and I can sleep like a school boy. I have been treated in two hospitals and by two doctors besides, and received no benefit; so I think your medicine is the only medicine for me."

Do not let any one induce you to take a substitute in place of "Golden Medical Discovery." Buy of reliable dealers. With tricky ones, something else that pays them better will probably be offered as "just as good." Perhaps it is for them; but it can't be for you.

make any speech or publish any law advocating or opposing any political measure or the election of any man, or any set of men to any office in this commonwealth, or under the United States, or to serve in hold any official position in the organization of any political party in the commonwealth; and the making of such such speech, or the publication of such law, or the acceptance of such office by the judge of any court in this commonwealth, shall be cause for the removal from office, by impeachment or such other proceedings as is now required and prescribed by law;

Provided, however, the provisions of this act shall not apply to any judge who is a candidate for an office to be filled at the election next succeeding any such political service or acts."

Biliousness

"I have used your valuable CASCARETS and find them perfect. Couldn't do without them. I have used them for some time for indigestion and biliousness and am now completely cured. I recommend them to every one. Once tried, you will never be without them in the family." EDW. A. BLAKE, Albany, N. Y.

Journalism.

Times are getting sadly out of joint.

Journalism is going to the dogs along with a great deal else that used to be looked upon with reverence.

The average reader will no longer look at a paper which prints the news in becoming style. The quiet headline, the temperate narrative, the news without malice, now fails to attract the attention of the soul in search of information.

He must needs have his news in a first page which looks like a sale bill.

He must see type five inches tall over a three-line telegram, the telegram in substance, reporting that "It is said so and so, add so on."

If possible, the news must not only be in poster type, but there must be red, blue and black ink thrown together indiscriminately so as to get the whole to look as much as possible like a night mare drunk on apple brandy.

In other words, the modern journal must be printed in a job office, leaving the old-fashioned newspaper type for Sunday School papers.

The reader is newspaper drunk.

He has the jimjams, the delirium tremens of sensationalism and in his frenzy he must ever have an increase of the intoxicants of modern journalism.

He cannot go to bed without the draught and he must have awful fits for the judge of any another dose before breakfast in the Commonwealth to if the ascorite paper of it's re-

He days refuses to convert itself to the mad-house style of serving up alleged news, he leaves that to be read by the women and children and preachers, while he goes in quest of an editor who feeds on human flesh and whose only beverage is blood.

He cannot wait until a thing happens before he is told about it. His newspaper must anticipate court decisions, read the minds of legislators and do many other things exclusively, and if the facts in the case do not conform with the first publication, they are "garbled."

It matters political the victim falls into his most excruciating spasms.

If he is a Republican and is reading about the sins of the Democrats, or if he be a Democrat and wants information about the Republicans, his mania takes on its most tortuous phase.

Before entering upon a perusal of his favorite party organ upon the jack-bill pattern, he sets his mind to running and works himself up into the frenzied conviction that the fellows on the other side are all scoundrels, thieves, liars, murderers, assassins, fools and incapable of a spark of patriotism.

Having firmly ground this into his being, having determined that he is right and everybody else wrong, that in his magnificent intellect repose the wisdom of ancient and modern times, and damned be who contradicts, having reached this conclusion, he is ready to read the political news of the day.

Then, if the paper he buys does not carry out his preconceived notions in the matter, he swears that it is not worth reading, that it lies, distorts the truth for selfish ends, and does other things discreditable to high-toned journalism.

If he only had a chance he would show the world a thing or two about running a newspaper.

Who will say that such do not exist in all parties? And, more is the pity, the tribe seems to be on the increase.

If readers of this kind continue to demand blood-raw sensations and fire-eating politics, and if the papers continue to print the news in poster type, the man who is seeking the truth, uncolored and unbiased, will have to depend entirely histories to be written by future generations.—Penciler in Danville Advocate.

Fattening Spring Lambs for Market.

Sheep not under two or over nine years that have raised early lambs in the past, are preferred. Separate the ewes from the bucks, turn them into a fairly good pasture until about July 15. Return the bucks to the flock, then turn, if possible, into a newly mowed field, an orchard with plenty of windfall apples being the best of all. Let them remain five or six weeks, then give them plenty of feed until time to house them for the winter. This should be done before they have a chance to suffer from hunger or storms. Give them comfortable quarters so arranged that later they can be closed up warm. The flocks should not contain more than 20 or 25, graded according to size, those of the same size in the same flock as nearly as possible.

Commence at first to feed all the hay ration they need. After two or three weeks begin to feed meal, first lightly, then gradually increasing to one quart per day each. I fed this year a mixture of one-half bran and one-fourth each of gluten and linseed meal. Give plenty of water, salt every week, watch the flock and wait developments.

Ordinarily the ewes and lambs will take care of themselves at first, but in almost every flock there are ewes that need special attention. Some may be neglectful of their lambs, others may not have milk for a day or two, or refuse to own their lambs. In either case separate from the flock, give them a small pen and endeavor by feeding, coaxing or force to make things right. Twins are not desirable, but fair lambs can be raised by extra care, or in some cases they can be used after a few days old to replace one that for any reason is lost. By taking the pelt of the lost lamb and fastening it to the other. Place the ewe and lambs in a small pen and give the extra attention as in one or her cases.

When the earliest lambs are two or three weeks old, give them a quite a roomy place, where they can go by themselves. Provide plenty of meal, skimmilk and the best of rowen hay all the time. I use for meal one half linseed, one-fourth each of bran and corn meal. Now if it is necessary to feed the sheep at any time a poorer quality of hay, wait until the lambs will take full rations of meal, but be sure until that time to give them plenty of the best of hay, rowen preferred, and grain, roots if you have them, but that is not necessary if you have plenty of the other feed.—Am'can Agriculturalist.

The State Senate met at Frankfort and ratified its action adopting the majority report of the Contest Boards unseating Taylor and Marshall. Both President pro tem Carter and Mr. John Marshal met on the rostrum, and, after good humoredly shaking hands, attempted to exercise the functions of presiding officer. The Republican Senators, on motion, adjourned, but a quorum and the clerks recognizing Carter, remained and adopted a strong resolution by Senator Allen reaffirming the body's action at the Capital Hotel.

"Of broadcloth?" asked the grocery man.

"Nope," replied the little fellow.

"Of mercury, then?" ventured the grocery man.

"Nope."

"Of jeans?"

"Nope."

"Well, what are they made of, then?"

"Of papa's old sense," triumphantly smiled the happy little fellow.—Columbian enquirer.

How Fishes Breathe.

Fishes breathe, as is well known, says Ulric Dahlgren in the Princeton Bulletin, by passing a stream of water through the oral cavity, in at the mouth and out by two lateral openings, the gill clefts. This is accomplished by a rhythmic motion, plainly visible, the nature of which, however, has never been accurately described, our best text-books of ichthyology calling it "swallowing," "an act similar to swallowing," &c.

The writer's discovery of two membranous valves just inside the teeth has made possible the following conception of the breathing of teleost fishes.

The construction and operation of the fish's apparatus is that of a perfect two-valve pump. In such a pump there must be a chamber which possesses two openings, each guarded by a valve. The forces necessary to operate such a structure are three (or six) in number: First, a force so applied as to alternately contract and expand the chamber; second, a force to alternately shut and open the posterior (exit) valve; third, a force to alternately shut and open the anterior valve. These valves must be operated in proper sequence to the expansion and contraction of the chamber. The valves may be operated either by separate mechanism or by the automatic action of a current passing through the chamber.

It is to this latter point that attention is called in the case of the fish. Here we find a chamber (the oral cavity) and two openings, the mouth (anterior opening) and the double gill opening (posterior opening). Muscular force is applied to expand and contract the oral cavity. But no such direct application of muscular force is needed to open and close the anterior and posterior openings. This is done automatically by the branchiostegal valves in the gill opening (or posterior opening), and by the maxillary and mandibular breathing valves in the mouth opening (or anterior opening).

The fish is thus not required to use separate muscles to close and open the passages, but the loss of energy due to friction and muscular momentum on the valves must be added to that required to expand and contract the oral cavity. It is simply a mechanical economy such as is found in the heart.

EXPENSIVE STUTTERING.

Colonel Davis Talks by Long Distance Telephone to Boston.

Charles A. Davis, envoy extraordinary and minister plenipotentiary at large for a well-known circus, is a most picturesque and accomplished stutterer. Mr. Davis withal is dignified, distinguished and decorous, and resents bitterly any indication on the part of his hearer that he has not a free flow of speech. Once in apologizing for his failure to keep an appointment with a friend he started to explain about the accident which had befallen his train.

"I have-j-j-j-just arrived in the-s-s-s-s-s-s-s-s-s. He was hopelessly anchored to that word, and his benevolent friend mildly suggested:

"City?"

"N-n-n-n-n-o!" shrieked Davis, with a gesture of inexpressible disgust. "D-d-d-d-darn it, the t-t-t-t town, darn it, the town!"

Recently, Colonel Davis was led to brush his rule of shirking clear of telephones. He was anxious immediately to adjust a bit of business with John Lewis of Boston. He went to the long-distance telephone at the Hotel Astle in New York, and Mr. Lewis called up, and encouragingly undertook the task of telling his wished known. Nineteenths of the conversation consisted of repetitions of the same consonants. Colonel Davis has known what it was to have trouble with consonants, but never in addition all his previous experiences were surpassed. Consonants arose like mountains to check his progress. But perseverance finally made good its reputation for conquering all difficulties, and Colonel Davis completed his arrangements, the telephone remaining intact. Davis, with a look of deep relief, came forth from the box, wiped the perspiration from his brow, lingered-ends and offered payment. The girl in charge, with a smile, said:

"I will come for it, sir."

"G-g-g-great H-H-H-Heavens!" cried Davis. "I thought the rate was a-a-a-dol-dollar and a-a-a-seventy-f-f-five."

"That's for five minutes' talk. We charge extra for each additional minute."

Colonel Davis slowly brought forth a roll of bills from an inner pocket, and murmured, as he paid the $40:

"N-n-n-next t-t-t-time I'll s-s-s-e t-t-time and m-n-money by t-t-taking a t-t-t-train."

Since the inauguration of the new plan of holding a term of this court on every third Monday in the month a good deal more business is being transacted in it. The docket of small suits has quite a large one this term, Besides the cases that were dismissed as settled and those that were continued the following came up.

W. E. Selecman against John Settles, judgment for plaintiff.

C. F. Patridge against S. D. Royalty. Judgment for plaintiff

Howard Tatum against S. C. VanArsdale was a suit on ac count in which judgment was given for the defendant VanArsdale. Tatham also sued Welsh Jones and in that case a judgment was rendered in favor of the plaintiff,

Cunningham & Duncan were given a judgment against Peyton Briggs on account.

In the case of J. G. Mansfield against S. G. Hardesty judgment was rendered for the plaintiff.

E. K. Bishop sued Frank Baker and a judgment was given in favor of the defendant.

A Great Sale.

A large crowd attended the sale of stock of Mr. John Simms near town on last Tuesday notwithstanding the very unfavorable weather conditions. Capt. T. D. English did the auction ering and bidding was lively and prices ranged good. Owing to the inclement weather and to the further fact of there being so much to offer a good deal of the stock was not sold and none of the feed or agricultural implements were offered. These will be sold privately.

The aggregate amount of the sales of stock is in the neighborhood of $6,500. Among the items of sale were about 30 head of work horses and brood mares at prices ranging from $15 to $100. Thirty three head of Jacks at prices from $75 to $325. Several of the best jacks selling in the neighborhood of $300. Forty jennetts were sold at low prices; 25 mules twelve of them being yearlings brought an average of about $60 per head: twenty-one yearling steers sold at $38 per head; ten graded short horn cows at from $25 to $50 per head. One Polled Angus cow and calf sold for $150 and a 10 months old bull of the same breed was knocked down at $132.50. Dinner was served those in attendance and there were buyers from all of the adjoining counties.

Good old Granny Metcalfe, of Kentucky, 89 years old, says that Dr. Bell's Pine-Tar-Honey is the best grip cure, cough, lung and bronchial remedy that has been offered to the people during her life. Sold everywhere.

The Eminent Kidney and Bladder Specialist.

The Discoverer of Swamp-Root at Work in His Laboratory.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, or the kidneys themselves break down and waste away cell by cell. Then the richness of the blood—the albumen—leaks out and the sufferer has Bright's Disease, the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** the new discovery is the true specific for kidney, bladder and urinary troubles. It has cured thousands of apparently hopeless cases, after all other efforts have failed. At druggists in fifty-cent and dollar sizes. A sample bottle sent free by mail, also a book telling about Swamp-Root and its wonderful cures. Address Dr. Kilmer & Co., Binghamton, N. Y., and mention this paper.

PERSONAL.

Mr. W. L. Graham, of Sharpsville, was in town Tuesday.

H. M. Noe and family have moved into rooms in Mrs. Peters' house.

Joe Mansfield has gone to Danville to take a law course at Center College.

Miss Nancy Williams, of Bardstown, is visiting Miss Nina Kimberlin, this county.

Miss Flora Mudd will entertain the young folks at euchre this evening at home near town.

Mr. John Ewing, of Louisville, is here this week visiting friends and relatives in the county.

Messrs Mack Miller and Julius Leon of Bloomfield, were in town Tuesday and attended the Simms sale.

The Misses Campbell entertained a few of their young friends at Progressive Lagomachy last evening.

Miss Nichols and Miss Brown, of Nelson county, and Miss Lydia Lee Houston, of this county, were in town Tuesday.

Mr. John B. Grundy, who has been in Louisville with Levy Bros. for several months, was seen on our streets Tuesday.

Mr. H. M. Noe leaves today for Louisville to take a position as traveling salesman for the Osborn Implement Co. His territory will be Kentucky and probably part of Indiana.

Miss Katie Lee Yeager, mother and brother have rented the residence of Mr. C. A. Green and will move into it shortly. Miss Yeager will engage in the millinery business in Springfield.

Mr. C. A. Green returned yesterday to Georgia after spending a few days here. Mr. Green reports that Marks, Green & Co. are doing a big business in lumber and logs in the Blue Ridge mountains.

Mr. J. S. Claybrooke attended a party given by the Misses Wilkerson near Bardstown on St. Valentines day. The Misses Wilkerson, from all accounts, understand the art of entertaining to perfection.

Misses Lizzie and Lettie Leachman entertained the O. W. C. at euchre on Tuesday evening. Miss Willie Knott captured the ladies' prize and G. L. Wharton the gentleman's, and Miss Catherine Russell the "booby."

Mr. Will Merritt, the well-known young farmer of the Pleasant Grove neighborhood, came in last Thursday from Louisville with his bride. She was Miss Ora Wright, of Simpsonville, the daughter of a Methodist minister and a young lady of beauty and accomplishments. The NEWS-LEADER extends congratulations.

Among those who attended the Simms' sale Tuesday from neighboring counties we notice the following: Will Faulconer, Jerry Caldwell, Dan Thomas and Mr. Roberts, of Boyle county; Messrs. J. W. Spalding, C. C. Bolderick, Harry Brown, Richard Spalding, W. C. Rogers, R. Y. McElroy, of Marion; Julius Leon, James McKee, Davis Wakefield, Alex. Hinkle, Waddy McMakin, Will Honchins, Charles Miller, John Edelen, Henry Edelen, William Whalen, Charles Brown and Wood Brown, of Nelson, and others from different points of the state.

A Night of Terror.

"Awful anxiety was felt for widow of the brave General Burnham of Machias, Me., when the doctors said she would die from Pneumonia before morning" writes Mrs. S. H. Lincoln, who attended her that fearful night, but she begged for Dr. King's New Discovery, which had more than once saved her life, and cured her of consumption. After taking, she slept all night Father use entirely cured her." This marvellous medicine is guaranteed to cure all Throat, Chest and Lung Diseases. Only 50c and $1.00. PLEASANT GROVE.

From Our Regular Correspondent.

Mr. J. S. Yankey celebrated his —— birthday in handsome style Tuesday.

Born—To the wife of Dr. Smock on the 15th a fine girl.

Mr. John Brown has 25 ewes that have 50 lambs, also 6 more that have 18 lambs, all living and doing well. Beat that, some of you sheepraisers and tell the truth.

The case of Lucien Gregory versus Bud Kinder for breach of peace, which was to be tried Saturday before Squire Yankey at Kelly's court house, was postponed for the 23rd. On account of the prominence of both parties the required number of jurors could not be found. Coroner Montgomery says he will have to go to Nelson county to find the jury.

Mr. Will Merritt and Miss Ora Wright were married in Louisville on the 15th. The bride is the daughter of the Rev. Wright of Simpsonville, and the groom is a prosperous farmer of the Grove neighborhood. We extend our congratulations.

Married at Fenwick—On the 20th inst. by Father Ford, Miss Rosa Polin to Mr. J. R. McAllister. The above marriage seems to be a surprise to the many friends but I have it from a friend of both parties that they have been sweethearts for at least 27 years. Their motto seems to be "there is luck in leisure." His old neighbors and friends will miss him as he will go to Miss Rosa's home near Fenwick.

Aunt Sisley Peters, an honest and faithful colored woman, died of heart failure at Judge Litsey's Monday night.

Consumption Threatened.

C. Unger, 212 Maple St., Champaign, Ill., writes: "I was troubled with a hacking cough for a year and I thought I had the consumption, I tried a great many remedies and was under the care of physicians for several months. I used one bottle of Foley's Honey and Tar and it cured me, and I have not been troubled since." Haydon & Robertson.

TEXAS.

From Our Regular Correspondent.

Mr. C. B. Pope sold his farm consisting of —— acres to Mr. Yates of Willisburg, for $750. Mr. Yates has taken possession. Mr. Pope has rented from Mr. Sidney Green the tollgate property and moved with his family to same which was recently vacated by Mr. Jim Coyle.

Rev. F. E. Lewis preached at Texas Sunday night.

Sliced Death Off.

E. B. Monday, a lawyer of Henrietta, Tex., once fooled a grave digger. He says, "My brother was very low with malarial fever and jaundice. I persuaded him to try Electric Bitters, and he was soon much better, but continued their use until he was wholly cured. I am sure Electric Bitters saved his life." This remedy expels malaria, kills disease germs and purifies the blood; aids digestion, regulates liver, kidneys and bowels, cures constipation, dyspepsia, nervous diseases, kidney troubles, female complaints; gives perfect health. Only 50c at Haydon & Robertson's drug store.

A decision in the suit of the heirs of George C. Spears against Foster Ray was rendered at Lebanon by Circuit Judge Charles Patterson. The suit which has attracted wide-spread attention, involved the title to Mr. Ray's fine stock farm, about two miles from town, upon which is situated a handsome home and other improvements, the value of which amounts to many thousands of dollars.

Deafness Cannot be Cured,

By local application as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh cure. Send for circulars, free.

1,000,000 DEATHS!

From Cholera During the Past Year.

The Germs of This Fatal Disease Are Lurking Everywhere! Thousands of Dollars Saved by This Wonderful Discovery.

Hundreds of thousands of dollars has been lost in the poultry business on account of the devastation among the flocks caused by cholera, roupe, gape, and other fatal diseases. There have been many remedies advanced but none seem to be so successful as the American Poultry Mixture. This will cure chickens in the last stage of cholera and roup, and is excellent for gapes. Do your fowls suffer from violent diarrhea, dropping of the wings, stupor or excessive thirst? These are are the first symptoms of cholera. Cholera is a germ disease and being infectious spreads rapidly through the entire flock. Take time by the forelock; don't stop to experiment with unreliable or untried remedies. Use this mixture at once and the sanitary measures they recommend in connection. Don't give the fowls up. Cholera is a terrible disease but this remedy cures it every time. It is also guaranteed for roup, which can be told by hoarse breathing, swelled eyes, discharge at the nostrails resembling catarrh. Fifty dollars is offered for any case the mixture will not cure. If some of your fowls are diseased it will prevent the rest from catching it. Try it. It is cheap, reliable and effective; a scientific preparation goes more than three times as far as any other remedy; does more good than all of them combined. It is use and endorsee by the most experienced and largest breeders of plain and fancy poultry in all parts of the world. The manufacturers guarantee every package or refund purchase money. If your druggist don't sell American Poultry Mixture he's behind the age. In that case send 1.00 for sample box to American Mfg. Co., Terre Haute, Ind.

Lebanon Locals.

From The Falcon.

J. N Ware sold his residence property in Lebanon to R. H. Carter for $1 100. Mr. J. N. Clark also bought of R. W. Bickett his residence property on High street for $1 500. Mr. George Wheatley bought of Newton Bros., the house and lot on West Main street formerly occupied by Mr. Hall, the barber for $600.

G. A. R. Department Commander J. H. Browning, accompanied by his staff Cols. Mike Minton, Apperly and Matthews, passed up the road yesterday en route to Lancaster whither they were going to make arrangements for the State encampment which meets there in May. Indications point to the probability that at the encampment our esteemed countyman, Major L. M. Drye, will be made Department Commander.

Not a marriage license since our last issue. Jno. Lanham, of the Haysville section, applied for license to marry Miss Ida Dorsey, but as he was not of age and his father's consent could not be obtained, the latter living in Indiana, the obliging Mr. Carter could not accomodate the young man, although it almost broke his heart to stand in the way of Cupid's wishes. Mr Lanham was not daunted. however, and said that he and his intended would go to Indiana and get married

A carload of negroes left here recently for Vevay, Ind., a couple of weeks ago, where they were to be given employment on a railroad. When they arrived at their destination, however, the company wished them to work a month gratis in payment for their transportation. The colored brethren refused to stand for such an arrangement however, and most of them, although they left on the L. & N., returned on the C. W. & B.—that is Came Walking Back; weary, footsore and disgusted.

Haydon & Robertson, Druggists, guarantee every bottle of Chamberlain's Cough Remedy and will refund the money to any one who is not satisfied after using two thirds of the contents. This is the best remedy in the world for lagrippe, coughs colds, croup, and whooping cough and is pleasant and safe to take. It prevents any tendency of a cold to result in pneumonia.

Escaped Drowning.

Messrs Edward and Jeptha Britton while attempting to cross Glen's Creek, in Washington county, last Thursday, narrowly escaped being drowned. The horse and buggy, with its two occupants, were swept a hundred yards by the swift current, and it was with difficulty that they reached the bank. The crossing is an extremely dangerous one, and some years ago a team hitched to a two-horse wagon were drowned. The Messrs Britton's horse escaped serious injury, but the vehicle was smashed. — Harrodsburg Democrat.

Winning New Laurels

Reuben Gentry, well known in Louisville is gaining new laurels as the manager of the stock department of the famous Vanderbilt farm, "Biltmore" in North Carolina.

Mr. Gentry formerly lived in Louisville, and was connected with R. J. Frick's drug store, at Sixth and Chestnut streets. He is a man of pleasing personality; and made many warm friends during his residence here.

The Danville Advocate speaks of him as follows;

"Reuben Gentry passed through Danville Saturday en route to Illinois from the Biltmore farms. Mr. Gentry goes with a commission to buy back his old prize hog, Columbia Duke, which he sold for $1,250. If he gets this fellow, he will have at Biltmore the prize boar of England and the prize boar of America, the prize sow of England and the prize sow of America. He now has under his charge in his department at Biltmore the finest herd of Berkshires in the world, and Mr, Vanderbilt gives him full liberty in the purchase, sale and management of the stock in this department. He has the confidence of his employer to a gratifying degree. He lives on the estate in a handsome and comfortable cottage, with all the conveniences of a city. Mr. Gentry and the children and 'Uncle Jess' are well and delighted with the climate of Western Narth Carolina which is almost as good as Central Kentucky.—Courier-Journal

A WONDERFUL DISCOVERY.

Not only cures, but it keeps well. Is sold by an organized company of responsible business men and has the endorsement of thousands of clergymen and noted people throughout the country. We speak of that wonderful instrument. Electropoise, and ask your careful examination into the cures it has wrought. Col. A. P. Nunally, of the Inter-Ocean, Chicago, writes: "Nearly three years' experience with Electropoise only confirms the truth of your claims. I say to my friends that this instrument is a most wonderful invention and I would not part with mine if I could not get another." Send address for our book giving letters from people who have been cured by Electropoise. ELECTROPOISE CO., 513 Fourth Ave., Louisville, Ky.

That Reward.

In determining the amount that should be offered as a reward for the arrest and conviction of the fiend or fiends who are responsible for the cowardly assassination of the late Mr. Goebel, the Legislature should consider the matter from every standpoint. A reward that would be an incentive to arrest and convict an innocent person ought not to be offered. None of the Legislators desires any innocent to suffer, neither do the people. What they do desire is the punishment of the scoundrel who is directly responsible for the death of the Democratic leader as well as every person who was indirectly connected with the foul crime. An amount of money then that would justify the employment of all legitimate means to apprehend and convict the guilty should immediately be offered, but an amount that would be an inducement to perpetrate another crime should not be offered. Where to draw the line is a question the solons themselves must solve and no doubt will do so to the satisfaction of themselves and the people. They understand that the question of money is of minor importance. The conviction and punishment of the criminal is the object, and the people of Kentucky will pay any amount that may be necessary to accomplish it. It is immaterial whether it is $100,000 or more, or less.—Danville Advocate.

Have You Heard Of It?

You may have heard about SCOTT'S EMULSION and have a vague notion that it is cod-liver oil with its bad taste and smell and all its other repulsive features. It is cod-liver oil, the purest and the best in the world, but made so palatable that almost everybody can take it. Nearly all children like it and ask for more.

SCOTT'S EMULSION

looks like cream; it nourishes the wasted body of the baby, child or adult better than cream or any other food in existence. It bears about the same relation to other emulsions that cream does to milk. If you have had any experience with other so-called "just as good" preparations, you will find that this is a fact.

The hypophosphites that are combined with the cod-liver oil give additional value to it because they tone up the nervous system and impart strength to the whole body.

A Word to Doctors

We have the highest regard for the medical profession. Our preparations are not sold for the purpose of antagonizing them, but rather as an aid. We lay it down as an established truth that internal remedies are positively injurious to expectant mothers. The distress and discomforts experienced during the months preceding childbirth can be alleviated only by external treatment—by applying a liniment that softens and relaxes the over-strained muscles. We make and sell such a liniment, combining the ingredients in a manner hitherto unknown, and call it

Mother's Friend

We know that in thousands of cases has proved more than a blessing to expectant mothers. It overcomes morning sickness. It relieves the sense of tightness. Headaches cease, and danger from Swollen, Hard and Rising Breasts is avoided. Labor itself is shortened and shorn of most of the pain.

We know that many doctors recommend it, and we know that multitudes of women go to the drug stores and buy it because they are sure their physicians have no objections. We ask a trial—just a fair test. There is no possible chance of injury being the result, because **Mother's Friend** is scientifically compounded. It is sold at $1 a bottle, and should be used during most of the period of gestation, although great relief is experienced if used only a short time before childbirth. Send for our illustrated book about Mother's Friend.

An Editor's Life Saved by Chamberlain's Cough Remedy.

During the early part of October, 1896, I contracted a bad cold which settled on my lungs and was neglected until I feared that consumption had appeared in an incipient state. I was constantly coughing and trying to expel something which I could not. I became alarmed and after giving the local doctor a trial bought a bottle of Chamberlain's Cough Remedy and the result was immediate improvement, and after I had used three bottles my lungs were restored to their healthy state.—B. S. Edwards, Publisher of The Review, Wyant, Ill. For sale by Haydon & Robertson, druggists.

New and valuable medicinal agents are combined in Dr. Bell's Pine-Tar-Honey. It advances a new theory in the treatment of coughs, colds, lung and bronchial troubles. It gives immediate relief to consumptives. Try it.

Tetter, Salt-Rheum and Eczema.

The intense itching and smarting incident to these diseases is instantly allayed by applying Chamberlain's Eye and Skin Ointment. Many very bad cases have been permanently cured by it. It is equally efficient for itching piles and a favorite remedy for sore nipples, chapped hands, chilblains, frost bites and chronic sore eyes. 25 cts. per box.

Dr. Cady's Condition Powders, are just what a horse needs when in bad condition. Tonic, blood purifier and vermifuge. They are not food but medicine and the best in use to put a horse in prime condition. Price 25 cents per package.

"I think I would go crazy with pain were it not for Chamberlain's Pain Balm," writes Mr. W. H. Stapleton, Herminie, Pa. "I have been afflicted with rheumatism for several years and have tried remedies without number, but Pain Balm is the best medicine I ever got hold of." One application relieves the pain. For sale by Haydon & Robertson.

Weak eyes are made strong, dim vision is made clear, styes are removed and granulated lids or sore eyes of any kind may be speedily and effectually cured by the use of Sutherland's Eagle Eye Salve. It is put up in tubes and sold on a guarantee by all dealers,

"I have always used Foley's Honey and Tar, cough medicine, and think it the best in the world," says Chas. Bender, a newsdealer of Erie, Pa. Haydon & Robertson.

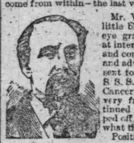
A SMALL SPOT MAY BE CANCER.

MOST VIOLENT CASES HAVE APPEARED AT FIRST AS MERE PIMPLES.

The greatest care should be given to any little sore, pimple or scratch which shows no disposition to heal under ordinary treatment. No one can tell how soon these will develop into Cancer of the worst type. So many people die from Cancer simply because they do not know just what the disease is; they naturally turn themselves over to the doctors, and are forced to submit to a cruel and dangerous operation—the only treatment which the doctors know for Cancer. The disease promptly returns, however, and is even more violent and destructive than before. Cancer is a deadly poison in the blood, and an operation, plaster, or other external treatment can have no effect whatever upon it. The cure must come from within—the last vestige of poison must be eradicated.



Mr. Wm. Walpole, of Walshtown, S. D., says: "A little blotch about the size of a pea came under my left eye gradually growing larger, from which shooting pains at intervals ran in all directions. I became greatly alarmed and consulted a good doctor, who pronounced it Cancer, and advised that it be cut out, but this I could not consent to. I read in my local paper of a cure effected by S. S. S., and decided to try it. It acted like a charm, the Cancer becoming at first irritated, and then discharging very freely. This gradually grew less and then discontinued altogether, leaving a small scab which soon dropped off, and now only a healthy little scar remains where what threatened to destroy my life once held full sway."

Positively the only cure for Cancer is Swift's Specific—

S. S. S. FOR THE BLOOD

—because it is the only remedy which can go deep enough to reach the root of the disease and force it out of the system permanently. A surgical operation does not reach the blood—the real seat of the disease—because *the blood can not be cut away*. Insist upon S. S. S.; nothing can take its place.

S. S. S. cures also any case of Scrofula, Eczema, Rheumatism, Contagious Blood Poison, Ulcers, Sores, or any other form of blood disease. Valuable books on Cancer and Blood Diseases will be mailed free to any address by Swift Specific Company, Atlanta, Georgia.

SHE WAS BLIND.

A blindness comes to me now and then. I have it now. It is queer—I can see your eyes but not your nose. I can't read because some of the letters are blurred; dark spots cover them; it is very uncomfortable.

I know all about it; it's DYSPEPSIA. Take one of these; it will cure you in ten minutes,

What is it?

There is an old saying to the effect that "Imitation is the sincerest flattery." Imitation by substitution is the praise that many druggists give to Dr. Bell's Pine-Tar-Honey. When they ask you to try something else just as good, they are seeking profit and giving bad advice. Substitutes can never do the work of

Dr. Bell's Pine-Tar-Honey

Substitutes bring more profit to the druggist, but less satisfaction to the buyer. Read the following testimony of a few of the many thousand who pronounce Dr. Bell's Pine-Tar-Honey the greatest cure on earth for cough, lung and bronchial troubles.

Dr. M. O. Leath, a prominent physician and surgeon of Indianapolis, Ind., in speaking of Dr. Bell's Pine-Tar-Honey, says: I have often used and prescribed this remedy in my practice in lung affections. ... I have highly satisfactory results from its use ... —M. C. Leath, M. D., 120 S. West street, Indianapolis, Ind.
